## OUR regional network

SCAN ME

**Lightweight components made of fiber composite materials**

## Industries

- Automotive
- Aerospace
- Electric Engine Systems
- Measurement Equipment
- Mechanical Engineering
- Railway Systems
- Shipbuilding
- Sports Equipment

## Foundation

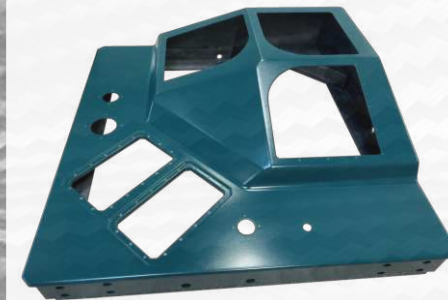

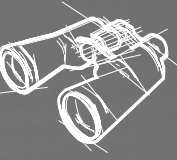

● 2016

## Vision

"HIGH PERFORMANCE COMPONENTS MADE OF FRP"

LiCoMo is a specialist for manufacturing of components made of fiber reinforced plastics

## Customers

● >40

## Components

● >120

## Technologies

- Compression Moulding
- Filament winding
- Hand lay-up
- Mechanical processing
- Prepreg-Autoclave
- Resin Transfer Moulding
- Sheet Moulding Compound
- Surface treatment
- Vacuum infusion

## International relationships

- Austria
- Slovenia
- Switzerland
- Vietnam

## Cooperation

## Products

- Beams and carriers
- Covers, casings and sleeves
- Plates and panels
- Pressure vessels and hydraulic cylinders
- Profiles, shafts, rods and pipes
- Sandwich panels
- Customized solutions
